

Mid-Level Graphic Designer Interview & Practical Test

Junior Level Graphic Designer Interview Questions

1. What are the main differences between Photoshop and Illustrator?
2. Can you explain what layers are in Photoshop and why they are useful?
3. How do you resize an image without losing quality?
4. What is the importance of using grids and alignment in design?
5. Have you used Canva before? What kind of designs did you create there?
6. What basic principles do you keep in mind while choosing colors?
7. What is typography and why is it important in design?
8. How do you handle feedback or criticism about your design?
9. Can you describe a simple process you follow when creating a design?
10. Have you worked on any UI/UX related tasks before? If yes, what was simple and what was challenging?

Junior Level Practical Test

Task 1:

Using Photoshop or Illustrator, create a simple business card design with name, title, and contact details.
(Time: 30 minutes)

Task 2:

Create a social media post on Canva to announce a small event or sale. Use at least one photo and some text. (Time: 20 minutes)

Task 3:

Draw a simple sketch (paper or digital) of a homepage layout for a website with a header, navigation bar, main image, and footer. (Time: 20 minutes)
